Erin Streeter

Erin has been a Family Advocate for over 10 years. Prior to her work in Dane County, she worked for Early Head Start in Green Bay. She has participated in the Capstone program and has utilized this information in her work with families. Erin goes above and beyond for families. She is an excellent advocate for children with special needs. You will often find Erin at the Children's hospital at 6:00 AM because a family needed a ride or taking them to a specialty appointment even though the agency is closed for bad weather. Erin never gives up on our families. She is currently facilitating a violence prevention program for parents, recognizing the impact that strong parenting has on children's mental health. She has participated in the ACE's learning collaborative this past year and is focused on ending cycles of trauma among families served.
