Where: Baraboo High School
1201 Draper St
Baraboo, WI 53913

Fee: \$15 for WI-AIMH members, \$20 for non members

Registration Deadline: August 9th
Light Breakfast and Lunch Provided

Developmental screening is a proven strategy for identifying children's strengths and opportunities for growth. **The Ages and Stages Questionnaire-3** empowers parents and child care providers to meet children's needs regarding whole child developmental milestones. Early identification of social-emotional challenges can make all the difference to a young child. The proof is undeniable: the earlier a behavioral concern is identified, the greater the chance a child has for reaching his or her full potential in life. This is the driving force behind **Ages & Stages Questionnaires®: Social-Emotional, Second Edition (ASQ®:SE-2)**. This training offers participants the opportunity to explore the purpose of developmental screening and how to have conversations with families and professionals regarding screening tools, rationale, and outcomes. Additionally, participants will learn the components of the tools, how to use the tools, and how to score the tools.
